DETAILED ACTION

1. Amendment and response filed by applicants in Paper No. 6, dated Dec. 4, 2003 have been entered and considered carefully. Claim 2 has been canceled. Claims 1, 3-9 and newly added claims 10-15 are pending. A terminal disclaimer filed by applicants has been approved.

2. *Restriction*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, 3, 6, and 10-13 drawn to compounds and composition of formula I, classified in class 546-548, subclass various, depending on species election.
- II. Claim 4-5, drawn to method of treating conditions modulated by endogenous growth hormone, classified in class 514, subclass various, depending on species election.
- III. Claims 7-9, 14-15, drawn to multiple active ingredient composition and method of use, classified in class 514, subclass various, depending on species election.

The inventions are distinct, each from the other because:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the method of treating conditions modulated by endogenous growth hormone can be operated employing growth hormone or its analog directly. Group III is drawn to multiple ingredient composition and method of using which are independent and distinct from a single active ingredient composition or compound since merits on synergism, antagonism etc. must be evaluated. Therefore, the searches for each group of invention is not co-extensive of each other.

During a telephone conversation with Mr. Boudreaux on Mar. 5, 2003 a provisional election was made with traverse to prosecute the invention of group I, claims 1, 3, 6, 10-13. Affirmation of this election must be made by applicant in replying to this Office action. Claims 4-5, 7-9, 14-15 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. Claims 1, 3, 6, 10-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

A survey of the specification indicated that the instantly amended claim 1 contains new matter. Please note that none of the para-fluoro substituted examples has R¹ being indol-3-ylmethyl and none of the para-fluoro substituted examples has R₄ being CH₃. Therefore the limited scope finds no antecedent basis and descriptive support from the specification.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
